

EQUIPEMENTS POUR LES INDUSTRIES ALIMENTAIRES ET PHARMACEUTIQUES
EQUIPMENTS FOR FOOD AND PHARMACEUTICAL INDUSTRY

AIR / STEAM STERILIZER "MONOFAN" TYPE

PRODUCTS

STERILIZATION OF INFUSIONS

- Bags with or without overwrapping (no risk of bag whitening)
- Glass bottles
- Plastic bottles

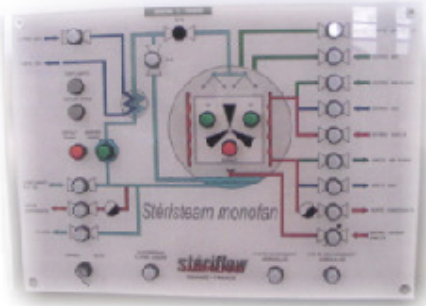

STERILIZATION OF CULTURE MEDIUM

- With indirect air cooling through internal Exchangers

Technical Characteristics

- Pre-heating through internal exchangers
- Fan with two speeds
- Ramp for direct steam injection
- Cooling through external heat exchanger and cold water spraying for sealed containers
- Air cooling through internal heat exchangers for unsealed items
- Temperature and pressure automatically controlled
- 3rd generation programmer MPI3 with TFT color screen
- Fitted with one or two doors
